[CNE25] The Orchard

In this beautiful orchard, apple and pear trees grow together. In the spring, this is clearly visible because of the different blossoms, and in the fall because of the fruits that hang on them. But the rest of the year, I don't know which is which. The only thing I know is how many apple trees there are when there are four trees around me. I once wrote this down. Would you like to help me determine which fruit tree produces which fruits? Maybe there is something extra hidden in it. Below you will find the clue that I wrote down.
