### Long Description

#### This cache is part of CNE 2026

CNE stands for the culture and nature event. The event took place on March 21, 2026, in Amersfoort. More information about CNE can be found at: [www.cultuurennatuurevent.nl](http://www.cultuurennatuurevent.nl)

With this event and these caches, we want to show everyone all the wonderful things Amersfoort and the surrounding area has to offer in terms of culture and nature. We hope you have lots of fun with these caches!

## [CNE26] GeoArt A #3 View of Coninckspoort Bridge

### History of the Coninckspoort

The Coninckspoort was part of Amersfoort's city wall and was built as an additional passageway. The gate connected the city to the surrounding countryside and was important for traffic, trade, and control.

In the centuries that followed, the city wall lost its defensive function. Amersfoort grew, and where gates and walls once stood, new connections for citizens, trade, and industry emerged.

### From city gate to bridge

In the 19th century, the area around the Coninckspoort became increasingly important as a walking and traffic area, a sign of a changing city in which recreation and accessibility became increasingly important.

The current concrete Coninckspoort Bridge fits into this development. Concrete was then a modern and progressive building material and was widely used in bridges and infrastructure.

The bridge is therefore a fine example of early 20th-century industrial heritage: functional, sustainable and geared towards growing traffic flows.

### Industrial heritage

The Coninckspoort Bridge marks the transition: from a defensive city to an open city, from a medieval gate to a modern infrastructure, from military use to a civil and industrial function

Water, roads and bridges were essential to Amersfoort's economic development — and this place tells that story in a glance.

**First solve this puzzle to calculate the starting coordinate:**

Question 1

The name Amersfoort is first mentioned as Amersfoirde in what year was that?

Answer A = XXXX, B = first two digits, C = last two digits

Question 2

2/ What is the nickname of Amersfoort?

D = number of letters of the nickname

Question 3

3/ In welk jaar op 12 juni kreeg Amersfoort stadsrechten van de Utrechtse bisschop Hendrik van Vianden?

Antwoord D = XXXX, F = eerste twee cijfers, G = laatste twee cijfers

Maak nu de berekening:

Noordcoördinaat  $N 52^\circ (B - 9).(C + D)'$ Oostcoördinaat  $E 5^\circ (F - 7).(G - 18)'$ **Ga nu naar deze locatie en beantwoord de vragen:**

Vraag 1

Wanneer werd de wandelroute voor burgers aangelegd? We nemen hier het aantal jaren dat de aanleg duurde. Het antwoordt is A.

Vraag 2

Welke plattegrond uit 1846 stond op de achterkant van het bord? We tellen het aantal letters van het antwoordt, zonder spaties: Het antwoordt is B

Vraag 3

In welk jaar werd de Coninckspoor aangebracht? We nemen de laatste twee cijfers en tellen deze op: Dit is C.

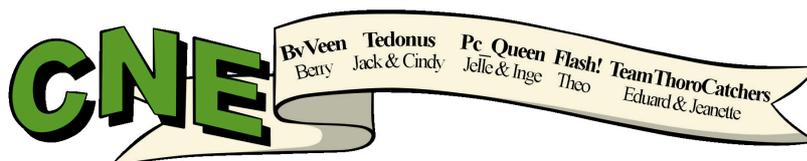

Vraag 4

Uit welk jaar dateert de betonnen brug? We tellen de eerste twee cijfers bij elkaar op. Dit is antwoord D.

De Berekening:

 $N 52^\circ 09.(A \times B) + (C \times D) + (A+B+C+D) + (C \times (D-1)) + (A^2-D)$  $O E 005^\circ 23. A^2 + (B \times D) + C^2 + D^2 - (A+B+C) - C + D - D$ 

Voor het plaatsen van deze cache is toestemming gegeven door de gemeente Amersfoort.  
Onze dank hiervoor.
