[CNE26] DBZ Light of Memory

This cache is located in the Bergkwartier district, which is divided into De Berg-Zuid and De Berg-Noord. The Light of Remembrance is located in the De Berg Zuid district, which is also the origin of the abbreviation DBZ in the cache title. If you want to visit all the DBZ and DBN caches in one walk, it's approximately 10 km. The multi-cache Light of Remembrance itself is a very short walk.

The Light of Remembrance monument stands on Borneoplein. This memorial was unveiled on Monday, May 19, 2025, in memory of ABC Jewish men, women, and children from Amersfoort. They were killed during World War II. Light of Remembrance was designed by light artist Tamar Frank.

The monument consists of ABC light objects. These symbolize the ABC Jewish men, women, and children of Amersfoort who fell victim to World War II. Each light object consists of a pillar with a reflective cube at the

top. The cube measures 10 by 10 centimeters. This is also the size of the commemorative stones on the sidewalk in front of the houses where Jewish Amersfoort residents and resistance fighters last lived.

The lighted objects have different sizes, which are proportional to the average height of people. Each lighted object represents one of the victims. A light burns for each victim on the date of death and the evening before. We will place a mirrored column in the pond. The light from this column burns constantly. On the [Light of Remembrance](#) website, you can see for each day for whom a light burns and where that light is located.
